## THE GREATEST Towel Sale OF THE TIMES

### COTTON, LINEN AND TURKISH TOWELS

Many other stores are selling these same values for twice what we ask, simply because there is always such a demand for towels that it is no trouble to get high prices for them. Our prices are always the lowest. This week,—this week only—they're going to be lower than ever, because we struck such a towel bargain that we can afford to sell a long way below any other store in Honolulu.

#### Cotton Towels at Factory Prices.

### NEW HONOLULU ROADS

#### JUDD STREET EXTENSION TEMPORARILY BLOCKED

Contractor Belser Will Have Diamond Head Drive Finished Month Ahead of Contract Time Limit.

Road Engineer R. F. Boyd has had plans completed since the first of the month for the 56 foot road extending Judd street to connect with the asylum road leading into King street. When this road is made, it will finish the circuit of a beautiful drive at an elevation commanding a view of the city and harbor. The chief advantages of the new road accrue to the owners of property on either side. A large area of very desirable property will be then connected with the Honolulu boulevard system. The Public Works Department will find its operations in the upper Nuuanu neighborhood greatly facilitated, as well. The road, when macadamized, will afford an easy outlet and a short haul for street material from the asylum road crusher. At present it is a long way round from the asylum crusher to upper Nuuanu.

The extension will be over 1950 feet in length. The engineer has all plans with details of cuts and fills, drawn ready for the contractor. The only obstacle now in the way of this improvement, is the refusal of a few property owners to make concessions as to right of way. The majority of the owners see the benefits that will come from a good roadway at this point. Those who are holding back are Hawaiians. The largest owners are ready and anxious for the road to be opened.

J. J. Belser, the contractor who is building the Diamond Head road, has until September, by the terms of his contract to finish the job. He announces that he will have the road completed by the first of August. Mr. Belser began work on this road January 1. When completed it will have cost the Territory \$17,500. The length of the Diamond Head drive is a little more than three miles. The contractor has made a good job of it according to Road Supervisor Lloyd.

### SILVER SCHEME DEAD NOW SAYS TOWNE

New York, July 16.—Charles A. Towne, erstwhile Populist candidate for Vice President, high priest of silver at 16 to 1 and enthusiastic champion of William J. Bryan, is in town hobnobbing with the once hated plutocrats of

Wall street. Towne declared today that free silver was dead in the West beyond the possibility of resurrection, that the greatly increased production of gold had solved the financial question, and that Bryan was out of the running as far as the Democracy is concerned.

Towne believes Hill will be nominated by the Democrats in 1904; that Bryan will head a third party ticket and encompass the defeat of Hill.

### JAPAN FAVORS AMERICANS

Yokohama, July 5 (via Victoria, B. C., July 16).—American stock is booming in Japan at an unprecedented rate. The celebration of the Fourth of July yesterday transformed Yokohama into a veritable American town, and the scene at noon, when the war ships in the harbor joined in the salute, responding to the shore festivities, was a most inspiring one. The day closed with an exhibition of fireworks, which recently arrived tourists pronounced finer than anything ever seen in America.

Conjoined with this effervescence of patriotism, the preparations for the great celebration of the 14th, when the monument to commemorate Commodore Perry's landing is to be dedicated are proceeding on a magnificent scale. The Emperor has made a munificent contribution from his private purse and the occasion will amply testify in many ways to the high appreciation in which Americans are held in Japan.

### RUSH WORK DONE ON PACIFIC CABLE

London, July 15.—In the House of Commons today the Financial Secretary to the Treasury, detailing the progress of the Pacific cable, said that several sectional cable houses already had been constructed and sent out and were being erected at the various places. The survey had been sufficiently completed over 100 miles of the proposed route, and the manufacture of the cable would begin this week. Mr. Chamberlain said landing sites had been selected on Queensland, New Zealand, Norfolk Island and at Vancouver, and that the cable house was satisfied as to the ability of the contractors to complete the work by the end of 1902.

#### PRINCE AFTER DIAMONDS.

It is reported that Prince Cupid, who has been residing in European cities for the past two years, has decided to go into the diamond mining business in South Africa. His determination to go into a mining venture was announced hereby his drawing on the Kapiolani Estate for \$50,000 with which to carry out his ideas.
